Dr. Franklin and M. H. Holbrook of Boston returned yesterday from a general aspection of the properties which Dr. Franklin has rounded up in the Marys-cale district during the past year. General Manager D. C. Jackling of the Ctah Copper company has returned to Colorado to look after matters requiring its attention on that end of the line. In the meantime Superintendent Janny is crowding work at the site of the 500-ton mill that will handle the ores from the company's mines at Bingham.

SOME ACTIVITY

MONTANA SUITS CAUSE BREAK IN AMALGAMATED.

New York, Sept. 2.—There was no news to account for any change in the complexion of today's stock market and the early part of the session was given- over to duliness more profound and a siugglishness more inert than at any time during the present neglected condition of the market. Later there was some revival of activity which expanded the volume of transactions considerably over those of yesterday and lifted the average level of prices above last night. Atchison was a leader with an extreme rise of 2 1-8 and three or four other grangers responded to the extent of a point. Prices eased off bearing the profession of the strength of the profession of the strength of the profession of the strength of the profession of the preferred of the profession of the preferred of the profession of the profession of the preferred of the profession of the profession of the preferred of given over to dullness more profound ing Quite Heavily Again.

It is not so much of a surprise to see the stock of the Utah company gradually growing stronger. Tuesday the company marketed thirty tons of, ore on controls showing 140 ounces silver and 50 per cent lead per ton. Yesterday it followed up the performance by selling fifteen tons carrying 191.3 ounces silver and 51.4 per cent lead.

This is about the best ore ever shipped from the mine and the management says that another carload, nearly as good, is now on the way from the mine. The mine is reported to be looking better than it has for many months past and tomorrow the directors will brave the long overland ride to reach camp for the purpose of making a personal inspection. While nothing has yet been said officially on the subject, the shrewd ones are predicting that the company will enter the dividend lists again this month.

This rise in these stocks was simultaneous with strength in the corn and wheat market which seemed to leave no room for the inference that

A renewed suit against the Amalga mated Copper Interest in Montana and a three-point break in Consolidate Gas aroused misgivings amongst the professionals as to the market attitud of the Standard Oil interests. The unsettled labor situation in Colorado warefiected in the Colorado Smelting stocks. But these influences as we as the incident at Oyster Bay were disregarded in the late covering movement. The money market has become almost as nominal an affair as the stock market. Bankers seem convince that when the crop money begins to move the call loan rate will stiffen an borrowers will resort to time loans.

the buying was based on the more favorable immediate outlook for the continue yesterday's reactionary tendency. During the early depression Metropolitan Street Railway was conspicuously weak on account of current impression that the dividend on the stock guaranteed by the security company is not being fully earned. There was a report also of a \$500,000 decrease in the net earnings for August of U. S. Steel. The relative small increase in Pennsylvania's earnings for July, compared with the gross earnings and the sharp decrease in net for the lines west of Pitsburg and Erie were unfavorably commented upon.

Ore and Bullion.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$73,400, as follows: Siver, lead. gold and copper ores, \$44,800; base bullion, \$28,600.

The Metals.

The rise in quotations for government bonds is attributed to the demand from banks for use as securities against the expected increase in government deposits. United States 2s, 3s and old and new 4s advanced 1-2 per cent. The 5s declined 1-4 per cent on the last call.

A NEW ROUTE. The Road to Wellville.

It is by change of diet that one can get fairly on the road to health after years of sickness, for most ill health sickness and nervous headaches as some can if determined upon. One woman accomplished it in this way: "A few years ago I suffered terbly from sick and nervous headaches, eing frequently confined to my bed wo or three days at a time, the at tacks coming on from one to four times in every month. I tried medicines of all kinds but could get no real relief o a point where I was so utterly mis-rable that I was willing to make any easonable trial.

reasonable trial.

A person couldn't believe what followed, but the results speak for themselves; that was two and a half years ago and I have never tasted coffee since. I use Postum not only for its delicious flavor, but more for the good it has done me. All of my troubles disappeared as if by magic and I have for the past two years been doing all the work for my family of six. I seldom have even a slight headache, and dom have even a slight headache, and I would not give up my Postum and go back to coffee now unless I deliberately ntended to commit suicide.

"All of my neighbors, it seems to me, now use Postum in place of coffee and

If we had our way, there wouldn't be any bad whiskey in the world, but have you ever tried to imagine what would occur if the total supply of good whiskey was shut off. We know lots of men who would get fussy if they couldn't get a ninety proof bourbon blend such as Temple Club. Need your stock renewed?
